Wheeling, from Monday, May 10th, till Saturday, May 15th.

AT THE

SWAN HOUSE,

Parkersburg, West Va., Monday, April 26th, till Saturday Evening, May 2th.

Where they can be consulted

NASAL CATARRH

AND ITS EFFECT UPON

THE SYSTEM.

Catarrh consists of inflammation beginning behind and a little above the vel of the palate, and extending upward into the nose and air cavities of the face. It creates a perpetual desire to swallow, and causes a feeling as if something was sticking in the upper and back part of the throat. As the disease becomes chronic, the mucous membrane is hardened, the matter secreted becomes puriform, the breath is offensive, and the voice assumes a nasal character, and on rising in the morning, great effort is required to clear the head and throat. There is often a feeling of pressure across the lower part of the forehead, causing headache, dizziness, and confusion of thought and loss of memory.

The sense of smell becomes impaired, the eyes are watery, and, as the inflammation extends up the nasal tubes into the internal ear, there is partial deafness with ringing, humming or ringing noises in the ear. In all these cases, the mucous membrane is swollen, which, in time, deforms the nose, and impairs digestion, causing dyspepsia and a multiplicity of disorders, symptoms, which are often mistaken for other diseases. To the foregoing, and the fact that every breath of air drawn into the lungs is drawn over the diseased membrane, and that the air is thereby rendered impure, and that the patient who can deny the assertion that he neglects Catarrh to his own ruin.

Consumption is the most prevailing disease, at the present day, and which the young and the old are equally liable to contract. It is a disease which is often mistaken for Catarrh, from which the patient feels no alarm, until, step by step, it reaches the lungs, when it is too late to arrest it, the better than blind experiments.

With every inhalation of air, and loss of usefulness, there are hundreds all around us, in the morning of life, or Consumption, who can only live six months, a year, or longer, as the case may be, to a time when they are no longer, and the disease is then too far advanced to be cured, and the patient is then a mere shadow of his former self, and the disease is then too far advanced to be cured, and the patient is then a mere shadow of his former self.

These who indorse the stupid assertion that "Catarrh will get well of itself," or is curable by the use of the "Catarrh Cure," are in error, and will do well to remember that the "Catarrh Cure" is a mere name, and the disease is then too far advanced to be cured, and the patient is then a mere shadow of his former self.

Medical writers are wont to speak of Catarrh as a simple local inflammation, and the disease is then too far advanced to be cured, and the patient is then a mere shadow of his former self.

Both its importance and rational treatment are wholly ignored, and the result is a mere shadow of his former self.

Consequently, the disease is then too far advanced to be cured, and the patient is then a mere shadow of his former self.

and thus Catarrh is sure to predispose to Consumption, and in fact the prelude to that disease is in the eye of the patient.

The disease is then too far advanced to be cured, and the patient is then a mere shadow of his former self.

The disease is then too far advanced to be cured, and the patient is then a mere shadow of his former self.

The Intelligencer.

NEWS SUMMARY.

BY TELEGRAPH.

A detective who had charge of the house of Knight on State street, Brooklyn, one of the parties charged with the robbery of Wheeler's watch case manufactory, accidentally displaced some wood work on Friday last and discovered 3 nuggets of gold, 16 gold watch cases, and 2 seal rings. The whole property being worth \$5,000. Knight on hearing of this discovery confessed to the crime.

—Tuesday morning, Lee's Oil Refinery at Cleveland, Ohio, was entirely destroyed by fire. The fire communicated to the works of the Forest City Varnish Company, which were damaged to the extent of \$15,000, partially insured. Lee's loss was about \$15,000; no one was hurt.

—Frank R. Cheney, aged fifteen years, and a son of highly respected parents in North Andover, Massachusetts, shot himself dead Monday morning. His father had required him to apologize to his school teacher for truancy, which he refused to do, and he was shot dead.

—Bent Drake, alias Benton, was arrested in Worcester, Massachusetts, Monday, and brought to Boston, charged with obtaining \$1,200 from the First National Bank of St. Clairsville, Ohio, for forgery. The accused will be held to trial on a requisition of the Governor of that State.

—At Davenport, Iowa, Monday, a young man named George Clayton, while out riding with a young lady, took a pistol from his pants pocket and fired it, killing her. Clayton was charged, the ball entering his head and inflicting a wound which caused his death in a few hours.

—General Robert E. Lee arrived at Alexandria, Virginia, on Monday for his last journey. A large number of citizens called on him.

—Wm. C. Ross, chief assistant engineer of the Baltimore City Fire Department, died Tuesday morning, of injuries received at a fire in McClellan's Alley on the 17th inst.

—A dispatch from Birmingham, N. Y., states that a snow storm occurred there Monday night, covering the hills with snow as in winter. Some snow also fell there and in the neighborhood on Tuesday. Vegetation in the Susquehanna valley is now in the bud, and it is feared damage will result from frost.

—Col. Forney and friends arrived at Knoxville, Tennessee, on Tuesday, and were kindly entertained by the people. The visit was a success, and the people were much pleased.

—Col. Forney, Gen. Van Wyck and Clinton Lloyd, will address the Industrial Association this evening.

—John Dorsey, an Irishman, living in Williamsburg, Md., murdered his wife Mary Dorsey, Saturday night, by beating her brains out with a club.

—A railway tie of polished California laurel, mounted at either end with solid silver and accompanied by a spike of solid gold, costing \$200, were forwarded from San Francisco, Tuesday, to the end of the line at New York. The tie was the last tie, and will be laid by Leland Stanford on Saturday next, thus completing the Pacific Railroad.

—The Dyer Court of Inquiry met Monday morning to begin hearing arguments, but counsel on both sides, after conference, withdrew, and the court being acceptable to General Thomas and his associates, was taken, and the court adjourned till the next day.

—The decision will probably reach the Secretary of War by to-day or tomorrow at furthest, and will probably be in the course of a week or ten days. Judge Advocate General Holt is to furnish a brief of the evidence, and the court will then proceed to a decision.

—A St. Louis husband put his wife's head under the hydrant for a few minutes, recently, to satisfy his neighbors.

—The case of Lafayette C. Baker and others against the City of Washington, for the reward of \$25,000, was decided by Judge Olin, who has ordered the city to pay the reward.

—The case has now been appealed to the Supreme Court, and will be argued again this month before the full bench.

—In the counties of lower Virginia, the cultivation of the peanut is making rapid progress, and the crop is expected to be a large one.

—Secretary Boutwell has issued his new regulations, twelve in number, for the government of clerks in his Department. They differ from former regulations, and will be in force on the 1st of June.

—One of the rules is that no clerk shall smoke in the office, and that no clerk shall use intoxicating liquors during business hours, which are to be from nine to three, instead of nine to four, as heretofore.

—A female house officer at New York recently examined a portly and dignified lady, who had just returned from Europe, and who was worth of point lace had much to do with the graceful rounding out of her figure.

—Judge Conover of Delph, Ind., is four feet two inches high, five feet one inch around, and 400 pounds in weight.

—An examination of the books in the United States Treasury's office shows that the public debt reached \$2,500,000,000 in August, 1865, when it was \$2,757,689,571. At present it is \$2,620,757,888, a decrease of \$126,931,683. In August 1865, there were out but \$1,251,000,000 of Pacific Railroad bonds, while there are now \$5,820,000,000. The decrease in the bonds is \$4,569,000,000. The bonds of the Pacific Railroad, \$2,500,000,000, being at the rate of nearly eighty millions per cent.

—The latest place the Second Advertiser in the States by the Rushville (Ind.) Jacksonian: "Gabriel will tout his kunk on the 10th of July."

—Secretary Cox has informed parties asking him to quit the extension of the Pacific Branch of the Pacific Railroad with full subsidy of bonds and lands, that he will not do so, and that the three miles limit applied to headlands and not to bays, and that the net meeting. The petition and affidavits filed with the Secretary show that the additional distance for the Pacific Railroad is to be about two hundred and fifty miles instead of one hundred and fifty as reported.

—The Government is preparing the instructions of Mr. Nelson, who is to leave for that country in about three weeks.

—A young man named Finley, at Springfield, Illinois, who was bitten by a snake in 1868, has just developed symptoms of hydrophobia.

—Marshall Brown, celebrated as the owner of remarkable pups, returns \$21,000 income.

BY TELEGRAPH.

EUROPE.

RUSSIA.

ST. PETERSBURG, May 4.

Prince Menschikoff, Admiral of the Russian Navy, died yesterday.

ENGLAND.

LONDON, May 4.

In the House of Commons, this evening, Sir John Hay inquired what action the Government had taken in regard to the seizure of the brig Mary Lowell by a Spanish man-of-war in the British waters.

Mr. Arthur J. Olway, Under Secretary for the Foreign Department, replied that in the present imperfect state of information it was undesirable to make known the nature of the communications which had been exchanged with the Government of Spain on the subject.

Mr. Edward Sullivan, member for Malloy, will introduce a bill to prevent the Mayor of Cork from continuing to hold any office connected with the administration of justice in Ireland.

A Specimen of Western Storms.

From the *Lanark (U.) Gazette*.

The storm passed to the north of Lanark, presenting an awful and sublimely terrible scene. A few days ago it passed above the earth from one to three hundred feet, near Jones' neighborhood, and a few days ago it passed above the earth from one to three hundred feet, near Jones' neighborhood.

The family of Mr. W., a wife and child, were in the house, Mr. W. having just entered from milking. The house was entirely destroyed, and the family were killed.

—The majority of the delegates in the Cortes are in favor of a new ministry.
